

# МАТЕМАТИКА 07.05.2020г.

Приложение №1. Сосчитай капельки и напиши сколько их.

2. Чтобы примеры быстро решать, состав чисел надо отлично всем знать!

The image shows ten houses of different heights and colors, each with a number on its roof and a corresponding number of rows in its body. The houses are arranged in two rows. The first row contains houses with roofs labeled 3, 4, 7, 8, and 9. The second row contains houses with roofs labeled 2, 5, 6, and 7. There are also illustrations of a tree, a bird, a sun, and a rabbit.

3.Дополни цепочку.

4.Реши примеры.

$$5 - 2 = \bigcirc$$

$$3 + 1 = \bigcirc$$

$$4 + 1 = \bigcirc$$

$$3 - 2 = \bigcirc$$

$$8 - 6 = \bigcirc$$
